PROFILE

I am a committed third-year Application Development student pursuing a Diploma in ICT at Cape Peninsula University of Technology, seeking an internship opportunity to gain practical industry experience, apply my technical skills in a professional environment, and further develop my knowledge in software development.

PROJECTS

Student Management System – Java Desktop Application | 2025

- Co-developed a Java Swing application to manage student records within a team environment.3
- Applied OOP principles to ensure scalable and modular code.
- Connected the system to an SQL database for persistent data management.
- Implemented user-friendly interfaces with robust validation.
- GitHub link – https://github.com/MQaasimI/Student-Enrolment-Project.git

Smart Attendance System – IOT Device | 2026

- Automated attendance system that records student attendance using RFID technology and ESP32.
- Stores attendance data in Firebase Database for easy access and management.
- Improve efficiency and accuracy by reducing manual attendance processes.
- GitHub Link - https://github.com/MQaasimI/Smart-Attendance-System.git
